Acting Ch/D/E/RR

Fountain Subcommittee Inquiry for CIA Information on Linseed Oil

25X1 25X1 1. My memorandum to you of 22 June 1956 advised that ONI was preparing an inquiry to CIA for advice as to whether [redacted] could be released to the Fountain Subcommittee. Enclosed herewith is the original of the Navy inquiry, which I received through OCN today and am delivering herewith to you for action.

25X1 2. I have not as yet been able to obtain a copy of this report, but I have ascertained that the following is the only information in

25X1 3. Upon receipt of the enclosed letter from the Navy, I telephoned LCDR W. J. Doyle, the officer in ONI responsible for checking through their files in response to the Subcommittee's inquiry. He advised me definitely that the Fountain Subcommittee is aware only that there is "classified information originating in another agency" in the ONI files. The Subcommittee is not aware that this is CIA information or that [redacted] is the particular document of which ONI is thinking. The enclosed letter from CDE Bienvenu, who is an officer in the ONI Collection and Dissemination unit, would appear to indicate that the Subcommittee did have such detailed information: this is definitely not so

~~CONFIDENTIAL~~

**SUBJECT: Fountain Subcommittee Inquiry for CIA Information on Lined Oil**

4. LCDR Bayle has the substantive responsibility in ONI on this subject; he advises us that CDR James F. Schremp (Code 131 x 74451) is the officer in the Navy's Office of Legislative Liaison who has been dealing with the Fountain Subcommittee.

25X1

5. A copy of this memorandum is transmitted herewith to OOR, Liaison Division, attention [redacted] for information.

25X1
